THE SMART SOLUTION FOR
AUDIT & COMPLIANCE IN EDUCATION

CONTENTS

WELCOME TO INVENTRY AUDIT & COMPLIANCE

InVentry Audit & Compliance delivers fast and cost effective solutions for tracking assets in your school. It provides you with a clear audit trail of usage to enable you to make informed decisions on your software and hardware investments. The compliance module completely removes the burden on administrative staff for ensuring that your building complies with statutory and regulatory standards.

Designed specifically for education, Audit & Compliance is the simple and smart solution to save time, money and resources in your school.

COMPLETE YOUR AUDIT IN THREE SIMPLE STEPS:
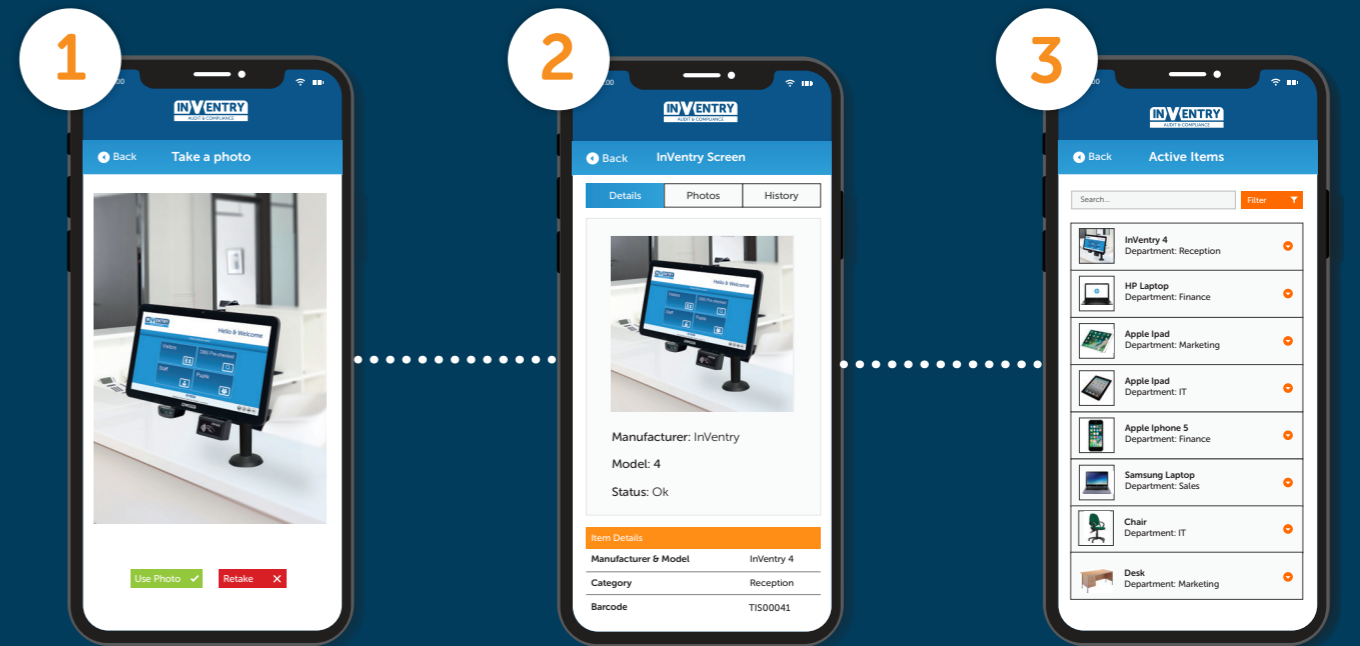

Download the app and snap your asset

Google Deep Learning populates asset details

Verify the details and add to your asset register

SCAN ASSETS IN AND OUT VIA YOUR INVENTRY SIGN IN SYSTEM

AUDIT & COMPLIANCE FEATURES

AUDIT SERVICE
Save time and resources with our professional on-site audit service.

MAT MODULE
Access asset and compliance information for multiple sites via one login.

GOOGLE DEEP LEARNING
Automatically populate asset details just from a photograph.

VALUATION
Track the depreciation of your assets to make informed decisions on investments.

LIVE GALLERY
Identify and access assets easily through the flexible photo gallery.

WIDGETS
Want to see which laptops will need replacing in the upcoming year? Simply create your own view and store it as a widget!

HELPDESK
Friendly support team on hand to help with any queries.

SIMPLE AUDITS
Scan the barcode on the door of the room you're wanting to audit and see all the assets associated with that room. Simply scan the barcode or tap the asset on your app to complete your audit!

WARRANTIES
When uploading a new asset, simply add in your purchase date and Audit & Compliance will auto-populate the item's warranty and replacement dates.

MIS INTEGRATION
Users populated directly from your MIS via an InVentry database

REPORTING A PROBLEM
Simply scan the barcode and report any problems you're having. This automatically sends an email through to your school's IT contact.

BUDGETING
Easily see which assets will need updating, replacing or fixing giving you the ability to add to your budget plan.

CUSTOMISED REPORTS
Easily report on assets within your school, fully customise each report to show the data you need, and easily export to Excel.
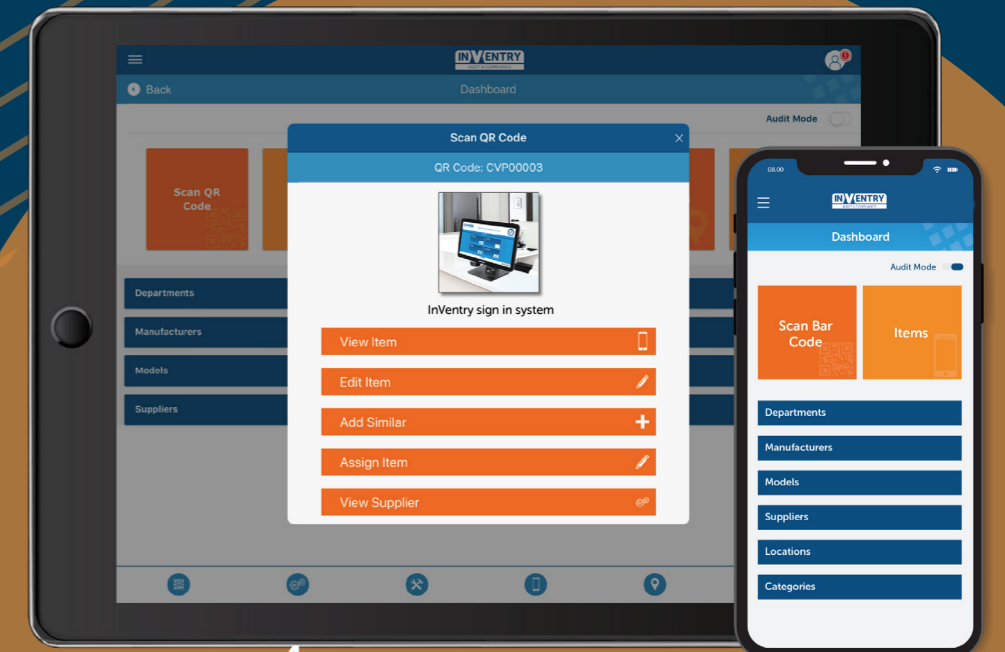

DOCUMENT STORAGE
Store all important documents, from certificates right the way through to warranty details, the need for outdated ring binders is removed with our cloud-based option.

CHANGING OVER TO AUDIT & COMPLIANCE

Already using an asset management system? Not to worry, we're easy to switch over to. We can read barcodes or QR codes from many other asset registers – it's never been easier to embrace change!

OASTLERS SCHOOL CASE STUDY

"Very professional audit carried out with little disruption to class. Lovely guys and very helpful, especially with the training."
- St Joseph's RC School

"Audit & Compliance has been great for our school. I'm so impressed with how easy it is to use, the navigation menu and the simplicity of the product. InVentry's technical team have been fantastic throughout the whole process. We can now easily look up assets using the sticky labels provided. The search and reporting features have been greatly received by our team. We couldn't recommend enough!"
- Hitesh Bhojani, IT Manager – Gardeners School Group

The Client:

Oastlers School, located in Bradford, caters for a total of 134 secondary pupils who have Emotional, Social, and Mental Health Difficulties. The school lays the foundations for a positive, rich learning journey for their community, and offers a broad curriculum leading to GCSE's and other similar qualifications!

The Challenge:

The school needed a simple and accurate way of tracking on-site assets. From laptops and iPads right through to keys, the solution needed to be robust and easy to use.

The Solution:

InVentry provided Oastlers School with a comprehensive solution to asset management, through their Audit & Compliance software. This solution has allowed them to compile a thorough list of assets within the school, also storing asset owner information and current locations. In addition, Oastlers use Audit & Compliance to log and monitor warranties of new assets added to the system, ensuring they remain compliant and up to date.

Jeanine Fairbairn, Business Manager at Oastlers School said, "Audit & Compliance has been great, it's really easy to use! The barcodes and scanning everything into the app has been our favourite part of the software, it's so simple but effective." Staff at the school also added "the ability to download and use the app on iPads has been really good for us too. It's made the process so much easier!"

The Oastlers School also opted for InVentry's audit service - whereby a member of the team visited the school to complete an on-site audit on their behalf - before they launched the software. When discussing this element, Jeanine went on to say "the set-up of everything was so simple because of the audit service InVentry provided. The handover was extremely efficient and straightforward, and all we need to do now is add new assets coming into the school. We couldn't be happier and would recommend the software to anyone, we couldn't live without it now."
